

Elegant, Precise, Proven

Betamix

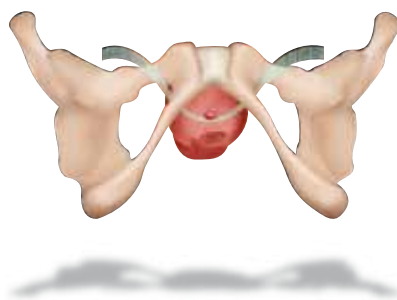

Biourethral Support System

Betamix Biourethral Support System is a mesh implant for reinforcing connective tissue structures and ligaments. **Betamix** is knitted from non-resorbable, monofilament polypropylene fibre.

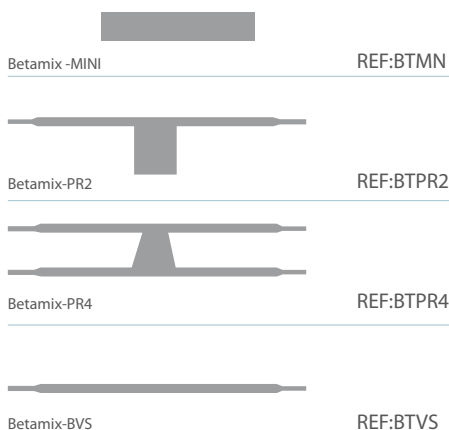

The specially developed knitted structures and ideal mesh size of **Betamix** are optimally matched to the fields of application for which it is intended.

- Non-resorbable Polypropylene
- High Tensile Strength
- Long Term Efficacy
- Low Coefficient of Elasticity
- No tape erosion
- No tissue reactions

*Laugh
